INDEX TO VOLUME 52

Abel, Ernest L., Smoking during pregnancy: a review of effects on growth and development of offspring 593–625

Al-Agidi, Saad K., Serum immunoglobulin levels in Iraqi twins 393–9

Age changes in: eosinophil counts 279–87; muscle response and energy stores 43–51

Aging and physical activity in U.S. males 131–49, 787–802

Aging of normal females, hormone levels in, 181–91

Alipov, V. I., Effect of artificial and spontaneous abortions on the secondary sex ratio 721–9

Angelov, G., Physical development and body structure of children with congenital heart disease 413–21

Anthropometric measurements of 9-year old South Carolina White girls 401–11

Armelagos, George J., Enamel hypoplasias as indicators of stress in three prehistoric populations from Illinois 515–28

Badzioch, Michael, The Aymara of western Bolivia: growth and development in an hypoxic environment 529–46

Barden, Howard S., Mesiodistal crown size dimensions of permanent and deciduous teeth in Down syndrome 247–53

Bear, J. C., Measures of genetic change in an evolving population 773–86

Bener, Abdülbari, Correlations between relatives with respect to dermatoglyphic patterns on specific fingers: parent-child 753–63; sib-sib 765–72

Beard, John L., Altitude, ethnic and sex difference in birth weight and length in Bolivia 459–77

Bioassay of kinship from continuous traits 689–700

Biondi, G., Distribution of S and C hemoglobins in Atakora district (Benin) 205–13

Birth weight and length, sex differences in, in Bolivia 459–77

Blood group B and tuberculosis in Eskimos 87–92

Blood groups of Isle of Man population 499–506

Bogin, Barry, Catastrophe theory model for the regulation of human growth 215–27

Body-build and skinfold changes in old men 803–9

Body volume, method for measuring, 23–33

Body water, total, prediction in adolescent males 381–91

Book notices, 167–8, 359–60, 591–2

Book reviews 151–65, 343–58, 581–90

- Bennett, K. A., ed., Yearbook of physical anthropology 151–2
- Bergsma, D., and D. E. Harrison, eds., Genetic effects on aging 353–6
- Borms, J., and M. Hebbelinck, eds., Pediatric work physiology 589–90
